

湖南环球信士科技有限公司

卫星追踪器定位精度说明

一、定位精度概述

定位精度是空间实体位置信息(通常为坐标)与其真实位置之间的接近程度。

二、精度等级和偏差

湖南环球信士卫星追踪器是通过湖南省产商品质量监督检验研究院检验审核批准。具体精度等级和偏差如下表:

A	B	C	D
5	10	20	100

注: 单位\米

三、定位精度的可信度

卫星追踪器的定位精度的可信度为 95%。

Hunan Global Messenger Technology Co., Ltd

Satellite Tracker Positional Accuracy Specification

I. Satellite Positional Accuracy

Satellite positional accuracy is the proximity of positional information of spaces entity, which is usually coordinate, to its real position.

II. Accuracy Grade and Deviation

Satellite tracker of Hunan Global Messenger has been passed the inspect and audit by Hunan Testing Institute of Product and Commodity supervision.

Details of accuracy grade and deviation is following:

A	B	C	D
5 m	10 m	20 m	100 m

III. Confidence Level of the Positional Accuracy

The confidence level of the satellite tracker's positional accuracy is 95%.
